How to Log Into Aeries.NET Remotely with 2 Factor Authentication

- This document describes how to use 2 Factor Authentication to log into Aeries.NET from off campus. After November of 2015, you will need to use 2 Factor Authentication to log in remotely.
- You will need to have been registered by the CIS department to successfully follow these instructions.
- You will need to have whatever token (hardware token, smart app, cell phone) with you to successfully log in.

1. Go to Remote Aeries.NET Login Page
   - www.bonitausd.org->Staff Resources->Remote Aeries Login

2. Type in your username and click Login

3. Select your method of authentication and press Log in
   - Smart Phone App: Duo Push (Default)
   - Token: Passcode
   - SMS/ Text Message: Passcode (and select send more)

4. Confirm Identity
If using the Smart Phone App You will receive a notification which you will need to approve.

If using a hardware token, click the white button on the token and key into the Passcode field the number that is displayed.

If receiving an SMS text message, you will receive 10 passcodes within a single text message. The duo login page will tell you which code is active.

**Note:** you may use each of the passcodes once before requiring duo to send you another text message.

5. Log into Aeries.NET

   - If prompted, enter your username and password
